

# Evren Azer Koçulu

Software Developer

**Current Residence:** Istanbul / Turkey

**Nationality:** Turkish

**Birth Date:** 06.15.1987

**Marital Status:** Single

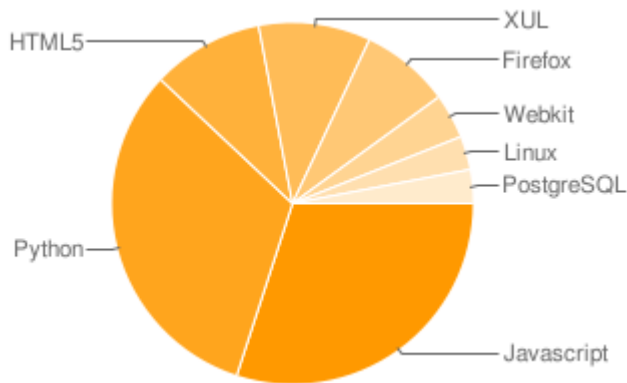

**Hobbies**

Science/Sci-fi books, astronomy, telescopes, camping, fishing, trekking, football, basketball.

**Website:** <http://azer.kodfabrik.com>

**E-Mail:** [azerkoculu@gmail.com](mailto:azerkoculu@gmail.com)

**Interests**

**Keywords**

Ajax, Comet, Reverse/Push Ajax, XSS, WSGI, CherryPy, PL/Sql, MySQL, SQLite, Linux, Debian, Arch Linux, Apache, Bash Scripting, Regex, Unit Testing, ORM Libraries

**Education**

Suleyman Demirel University, Isparta/Turkey  
Computer Science and Programming  
2005-2007

Anatolian Technical High School, Isparta/Turkey  
Software Programming  
2001-2005

## Industry Experience:

**eBay Turkey, Software Developer**  
Istanbul/Turkey

**May 2008-Nov 2008**

As a member of the IT team I developed;

- \* Web Based Store Designer application,
- \* Client-side persist data storage and cache libraries,
- \* PHP patches for found security vulnerabilities,
- \* DHTML summary screen placed on homepage.

Technologies Employed:

Javascript, HTML, CSS, PHP

**Pagos Inc, Software Developer**  
Farmington, USA

**Sep 2007-May 2008**

Worked remotely with SpreadSheetLive team to develop a web based spreadsheet software. First version was released in April, 2008. Some parts I've done:

- \* Grid system,
- \* Formula Manager,
- \* Menus,
- \* Toolbars,
- \* Dialog Forms and Windows.

Technologies Employed:  
Javascript, HTML, CSS

**Freelance**

**2001~**

I've been developing 8 years for open source projects including:

- \* MultiplayerChess.org  
Open source, web based chess game project.  
  
URL: <http://multiplayerchess.org>  
Project Page: <http://multiplayerchess.googlecode.com>  
Technologies Applied: Python, PostgreSQL, Javascript, WSGI
- \* Firebug Lite  
Lite&cross browser alternative of Firebug web development extension.  
I've been working as developer for this project since April 2008.  
  
Website: <http://getfirebug.com/lite.html>
- \* FFUZBL  
FFUZBL is a Mozilla Firefox extension provides using layout of UZBL browser that adheres to the Unix's design philosophy.  
  
Website: <http://wiki.github.com/azer/ffuzbl>  
<https://addons.mozilla.org/en-US/firefox/addon/13537>
- \* Pi Javascript Library  
Lightweight&DOM development oriented javascript library that is being used with the pi.comet plug-in.  
  
Technologies Employed: Javascript, documentation generator written in Python&YAML, Realtime Chat examples for PHP and CherryPy Framework.
- \* pyChessEngine  
A chess engine that analyses validates moves.  
  
Website: <http://pychessengine.googlecode.com>
- \* Rainbow9  
Provides an environment to execute and test Javascript, CSS, XML, XAML, SVG and HTML; sharing and publishing web applications.  
  
URL: <http://rainbow9.org>  
Project Page: <http://rainbow9.googlecode.com>  
Technologies Employed: Javascript, PHP

Some Applications which are developed with Rainbow9:

- Singleplayer Connect4 Game: <http://rainbow9.org/view/90409870/index.html>
- tekstmill: <http://rainbow9.org/view/47286683/index.html>

\* Multiplayer Connect4

It's one of my elementary experiments.

URL: <http://labs.kodfabrik.com/project/connect4>

\* Future of Cows

An experimental spacewar game that is written in Javascript and Python (CGI).

URL: <http://labs.kodfabrik.com/project/futureofcows3>

## *Publications:*

\* Pi Library Documentation

URL: <http://pi.kodfabrik.com/documentation>

\* Advanced Javascript

Language: Tr

URL: [http://azer.googlecode.com/files/ileri\\_seviye\\_javascript.pdf](http://azer.googlecode.com/files/ileri_seviye_javascript.pdf)

## *Presentations:*

\* Mutant Web Applications - RIATalks

Language: Turkish

URL: <http://www.slideshare.net/guest096801/mutant-web-applications-presentation/>

\* XAML For Javascript Coders

Language: Turkish

URL: [http://docs.google.com/TeamPresent?docid=ddwks393\\_12dbf2zg&skipauth=true](http://docs.google.com/TeamPresent?docid=ddwks393_12dbf2zg&skipauth=true)
